

DASH SPONSORSHIP / ENDORSEMENT

*******DISCLAIMER IS MANDATORY!!!!*******

This hour of Free Talk Live is brought to you by DASH – Digital Cash. DASH is the cryptocurrency designed to be used for spending. Rising fees have made bitcoin useless for purchases, but DASH continues to have fees less than one cent per transaction and has implemented really cool features to ensure it is undefeated as the most useful cryptocurrency in the marketplace.

From a technical standpoint, DASH transactions are irreversible and its network is protected from 51% attacks by their Chainlocks technology. There's no need to wait for a confirmation before considering a DASH transaction complete, so it's great for merchants.

DASH is one of the oldest cryptocurrencies and is widely available on exchanges and in multi-crypto wallets. It's easy to get, and use DASH. Start by learning more at DASH.org

Unfortunately due to government meddling, the company that partnered with DASH to offer DASH DIRECT is leaving the crypto business. However, they weren't the only provider of discounted gift cards for DASH.

BitRefill.com has been accepting DASH for years and has a ton of big name retailers and brands including grocers, gas stations, phone refills, amazon, and even prepaid mastercards. You could actually live off your DASH using BitRefill.com, plus many of their gift cards come with a discount.

In addition to being one of the world's first cryptocurrencies, DASH was the first crypto project to have a Decentralized Autonomous Organization that to this day continues to improve and promote DASH. Every month, 10% of the mining rewards go into a treasury. Anyone with one DASH to spend can put forward a proposal to the DASH Masternodes to vote on. The Masternodes vet the proposals and decide which ones move forward and are funded by the treasury. In fact, that's exactly how we got this sponsorship. Nowadays, DAOs are plentiful, but DASH paved the way by doing it first, nearly a decade ago.
